

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

PREFACE

At the Thirty-second meeting of the General Council held in Philadelphia, June 14, 1918, on motion of John Lenord Merrill, Esquire, the Secretary General, it was voted to recommend to the General Assembly the following Resolution:

Resolved by the General Assembly of the General Society of Colonial Wars that the Secretary General be requested to communicate with the Secretaries of all the State Societies requesting complete information of all members who are in the service of the United States Government, in the Army, Navy, or other service, in order that the Secretary General may compile a complete Roster thereof; and in connection with the above information that each State Society shall acquaint the Secretary General with a record of the patriotic work being done by the respective State Societies.

This resolution was adopted by the General Assembly June 15, 1918.

At a meeting of the General Council in Burlington, Vermont, June 14, 1919, the Governor General called attention to the vote, and it was

Resolved: that the preparation and publication of a Roster of the Services of Members in the World War be referred to the Committee appointed to prepare the General Register and Index of Members, or to a Committee of three to be appointed by the Governor General if, after conferring with the first named Committee, it be deemed best so to do, and that the cost of the publication be borne by the General Society.

The Governor General appointed the Registrar General, Arthur Adams, the Secretary General, Henry Arthur Griffin, and the Treasurer General, William Macpherson Hornor to be the Committee.

Forms for reports of service were furnished to the Secretaries of the State Societies. These reports were put into the hands of the Committee charged with the award of the War Service Insignia and certificates. From these reports, that Committee compiled the statements of service here presented, modified as circumstances demanded.

At the meeting of the General Assembly in Cincinnati, June 3, 1921, it was proposed to issue the "Honor Roll" with the "Index of Ancestors." This the Committee has done, carrying out what it believes to be the will of the General Assembly. The "Honor Roll" is also issued separately.

It is hoped that, although errors doubtless appear, a substantially correct record of the services of members of the Society of Colonial Wars to the Government of the United States during the World War is here presented. The Committee is certain that however faulty its work may be, the record is one in which the Society of Colonial Wars may pardonably take pride.

EXTRACT

Par. 3. The Army Air Service Commander, First Army, cites the following officer for exceptional devotion to duty:

Captain W. G. Schauffler, Jr., A. S., U. S. A., Headquarters, Air Service, First Army, Assistant Chief of Staff and Operations Officer, served with the greatest degree of efficiency. Prior to the cessation of hostilities, this officer was in command of the Observation Group, Third Army Corps, and through his untiring efforts, skill, and bravery attained for his Group the highest state of morale and efficiency, which placed it among the foremost of any of the First Army.

Captain Schauffler was one of the first American officers to fly over the lines, and through his excellent work in the Spring of 1918, he was afterwards given command of the 90th Aero Squadron.

In the summer months of 1918, he was admitted to the hospital, but when news of the proposed American offensive at St. Mihiel reached him, he left the hospital, although still in an unfit physical condition and joined his squadron in time to participate in that offensive.

This officer through his own personal bravery, flying continuously over the lines while acting as Squadron Commander, was awarded the French Croix de Guerre and was recommended for the American Distinguished Service Cross.

The Army Air Service Commander takes great pleasure in thanking this officer for the great help and assistance he contributed to the success of the Air Service, not only as a Squadron Commander, and Group Commander, but also as a Staff Officer at these headquarters.

By order of Colonel Milling,

R. L. WALSH,
Major, A. S., U. S. A.
Chief of Staff."

Commended by same in orders October 23, 1918, as follows:

"GENERAL HEADQUARTERS
American Expeditionary Forces
Office of the Chief Air Service
France, 30 January, 1919.

1. Desire to invite attention to the services of Captain William G. Schauffler, Jr., Air Service, who, while commanding the 90th Aero Squadron under my orders, signally distinguished himself by extraordinary heroism and consistent bravery and devotion to duty in connection with military operations against an armed enemy of the United States.

2. On October 1st, 1918, while carrying out an important reconnaissance mission over enemy territory in the region of Dannevoux, north of Verdun, Captain Schauffler's plane was attacked by a formation of eight hostile pursuit planes. Captain Schauffler unhesitatingly accepted combat and by an admirable display of skill and coolness not only succeeded in beating off his assailants but destroyed one of them. In the course of the combat this officer's plane was riddled with bullets and partially disabled. Notwithstanding the disabled condition of his plane, which rendered further flight extremely hazardous, Captain Schauffler resumed his mission which he successfully ac-

complished, returning to the airdrome with information of great tactical value. In the performance of his duties as Commanding Officer of the 90th Aero Squadron, Air Service of the Third Corps, First Army, this officer at all times distinguished himself by his qualities as a leader and an executive. The example he set in volunteering for and accomplishing at frequent intervals airplane missions of the most hazardous and difficult nature held the morale of the pilots and observers under his command constantly at a high level. In untiring energy, military zeal, and most complete devotion to duty Captain Schauffler set the pace and marked the standard of efficiency, completely dominating, and winning the respect and admiration of all whom he commanded."
